RE: Removal of old skating rink warming house at South Park

The Parks & Recreation Commission in cooperation with the Central Schools Industrial Tech program are constructing a new warming house building for South Park. We are anticipating a fall completion date and utilizing the new building for the 2018/2019 skating season.

The Parks and Rec Commission discussed what to do with the old building when it gets replaced. With the amount of decay within the floor and the timbers underneath the existing structure, they decided it would not be feasible to move the structure and attempt to sell or repurpose it. The Commission unanimously recommends disposing the old warming house.

Motion to demo and dispose the old warming house at South Park once the new warming house is completed and ready to replace it.

RE: Purchase Utility Vehicle for Streets/Parks Departments

I am looking to get approval to purchase a new utility vehicle for use in the Streets and Parks Department. We use the utility vehicles for basic transportation throughout the city and also for specific jobs including dragging ballfields, spraying weeds, snow removal, street painting, reading meters, pick up trash in parks, etc. Our current fleet has 2 utility vehicles in Streets/Parks and 1 utility vehicle in the Water/Wastewater Department.

In past years with the part-time summer staff at full capacity we have run into mobility issues within the Streets/Parks department. Due to these concerns we are looking to add one more Utility Vehicle into the fleet versus trading one of the older machines off for a new one. I feel the utility vehicle is a cheaper form of transportation versus budgeting and affording another pickup in the fleet at this time.

I solicited bids for a new utility vehicle from the listed dealers and prices as follows; Lano's for a Bobcat 3400 \$16,550, Midwest Machinery for a John Deere XUM825M \$18,100, and Arnold's for a Kubota which did not offer a comparable machine at this time that they could quote me a price for.

We due currently have this on our Capital Equipment Plan and it is up for replacement this year. We had anticipate trading in our existing Bobcat 2100 and paying a difference of \$10,000 for a new unit, but with the mobility concerns I listed above I feel we should add on into our fleet versus trading one off. I do not see any storage concerns or additional cost involved with keeping the 2100 at this time. I understand this purchase will be over our anticipated budgetary number, but with the changes in our Public Service Department I think this would be a responsible monetary purchase. Thank you for your consideration.

Attorney Paul Melchert is requesting the City of Norwood Young America take over the Forest Hill Cemetery as there are no living members of the cemetery's board. There is approximately \$40,000 in a fund that the cemetery has, according to the City Attorney, the City is only able to use the interest to take care of the cemetery.

Due to the number of unanswered questions, the council is requesting:

- Clarity from the City Attorney and Melchert.
- How many lot owners need to come forward before the City can take ownership?
- What happens with the \$40,000?
- Who is paying the attorney fees?
- Ask Mr. Melchert to come to the next work session.
