# **Exposure Notification**

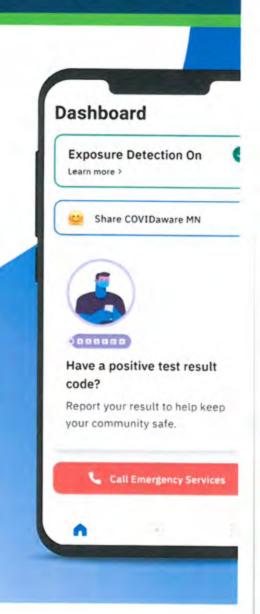

11/20/2020

# Google/Apple Exposure Notification Syste

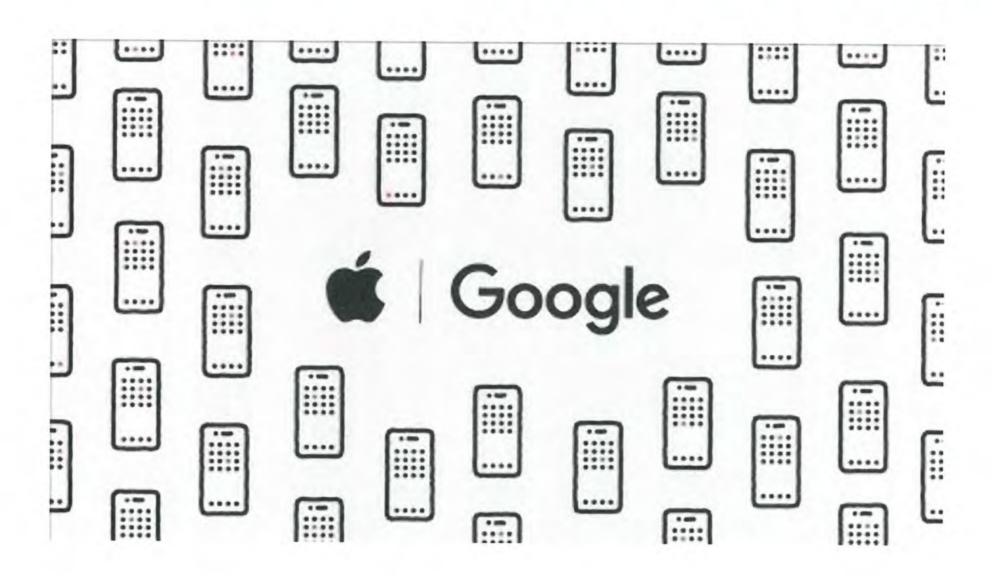

Exposure Notification with Bluetooth

Anonymous, opt-in solution with privacy safeguards

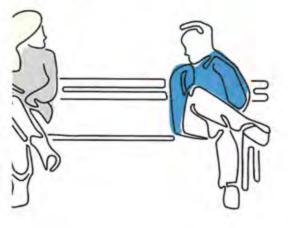

Goal: Slow the spread of COVID-19 by notifying more Minnesotans - more rapidly - of possible exposures, so they can take action to protect their communities

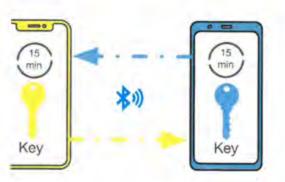

# Google/Apple Exposure Notification Syste

and Bob meet each other for the ime and have a 10-minute ersation.

ier beacons (which change ently).

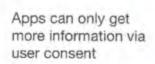

Bob is positively diagnosed for COVIDand enters the test result in an app from a public health authority.

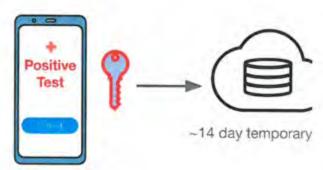

A few days later...

With Bob's consent, his phone uploads the last 14 days of keys for his broadce beacons to the cloud.

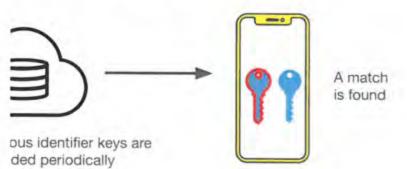

continues her day unaware she had near a potentially contagious person.

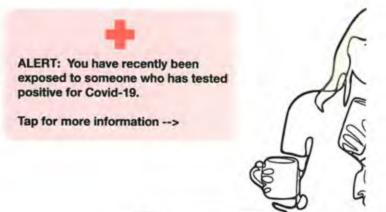

s phone periodically downloads the cast beacon keys of everyone who sted positive for COVID-19 in her I. A match is found with the Bob's mous identifier beacons.

Sometime later...

Alice sees a notification on her phone.

Alice's phone receives a notification vinformation about what to do next.

Additional information is provided by the health authority app or website

# What about my data and privac

s opt-in. People must explicitly choose to download the p and turn on exposure notifications — and they can rn it off at any time.

le system doesn't collect or use device location, cluding for users who report positive.

sers decide whether they want to report a positive agnosis and trigger a notification to their contacts.

entities of users and their contacts are unknown to e State, other users, Google and Apple.

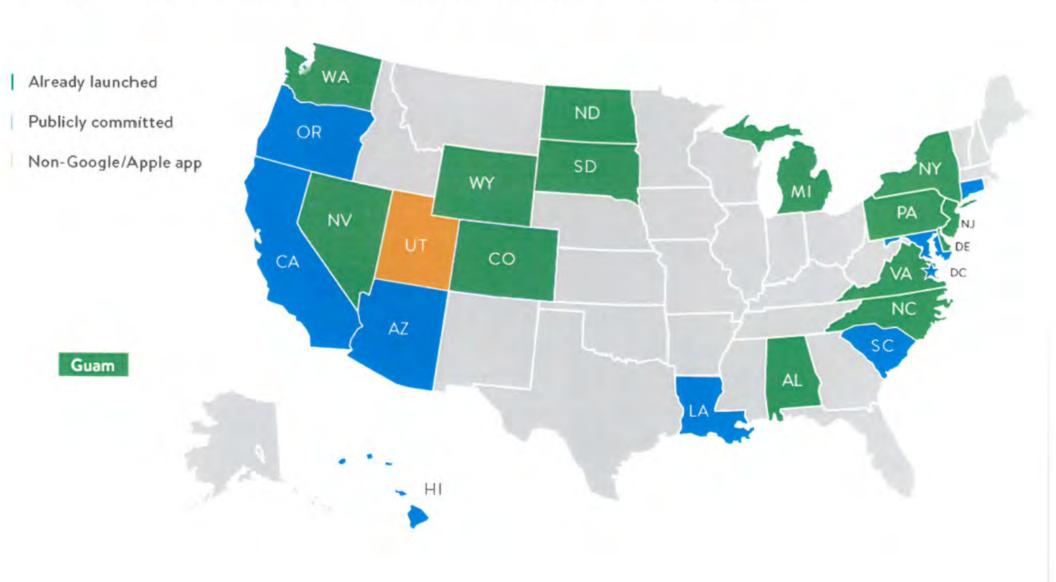

ses **encrypted random IDs** that change every 10-20 inutes to log contacts anonymously and securely on the evice.

stem on a regional basis when it is no longer needed.

# 16 launches in the US, with many more in the pipelir

An additional 12 regions are exploring solutions but have yet to make their plans public

# Worldwide launch

countries have launched a contact-tracing app

24

countries launched us Google/Apple technology

# Oxford University Resear

aying contact tracing by even a day he onset of symptoms could make ference between epidemic control pronavirus resurgence." "We see that all levels of exposure notification up levels in the UK and the USA have the potential meaningfully reduce the number of coronavirus c hospitalisations and deaths across the populatio

Digital contact tracing can limit intine request to those most at risk of transmitting the virus." All configurations of the app result in a substreduction of new cases, hospitalizations an admissions, and in a substantial number of saved.

# We need your help to spread the wor

### Please consider:

- <u>Sending a letter/message</u> to your staff or customers, letting them know your support and encouragement in downloading the app
- Putting up <u>signage</u> at your workplace if you have people entering your buildings
